ASIATIC CANDELABRA PRIMROSES

These plants are called "Candelabra" because of the successive whorls of flowers which appear on tall stems, continuing to bloom as the flower stalk lengthens. Most of this type are herbaceous and lose their leaves in late fall.

BEESIANA—Plum red.

BULLEYANA HYBRID—Rich orange.

ASTHORE HYBRIDS—Similar to Bulleyana Hybrids, but with taller stems. Rose, pink, lilac, apricot.

JAPONICA—White through pink to cerise.

HELODOXA—Bright yellow flowers on 2 ft. stems. Foliage evergreen.

MILLARS CRIMSON—Coppery rose tones with velvety maroon eye. A plant of unusual beauty.

PULVERULENTA—Bartley Strain—All shades of lovely soft pink.

All Candelabra types—50c each

FLORINDAE—Large trusses of fragrant yellow flowers on 3 ft. stalks. Blooms in mid-summer. 50c each.

SIEBOLDI—Crumply foliage, dainty flowers of white, pink, orchid, rose and lavender. 50c each.

ROSEA GRANDIFLORA—Loose flower heads of carmine appear before the leaves. Blooms very early. 50c each.

MICRODONTA—Soft violet blooms on tall stems in early summer. 50c each.

DENTICULATA—Flowers appear before the foliage, forming a lavender, blue or white ball on stout stems. 50c each.

GARDEN AURICULA

We have a good selection of garden auricula in mixed shades at 50c each.

Add 10% for postage please

SCAPIGERA

This dainty plant is covered with fringed delicate pink blooms in very early spring. It is not so well known, having been in cultivation but a short time. Native of northeastern India. Can be increased rapidly by leaf cutting. Really a jewel. \$2.00 each, plus postage.

At COLEWOOD we specialize in Natives, and other plants that enjoy some shade. We will be glad to supply your needs in such things as Ferns, Oregon Grape, Penstemon, Huckleberry, Tuberous Begonias, Helieborus, Heather, etc., etc.

Through this, our first catalog, we extend an invitation to you to visit our Woodland Garden. Come any time, but the woods are especially beautiful during the primrose season. To reach us turn toward Puget Sound at 186th S.W. and 1st Avenue South. Cross 4th S.W. and continue on down the hill until you reach "Colewood" gate.

POLYANTHUS PRIMROSES

The Polyanthus is one of the most popular of the Primrose family. It blooms in a wide array of colors from early to late spring, and develops stalks nine or more inches tall as the season advances. Each stalk is topped by a compact cluster of individual blossoms.

INDIAN REDS—Scarlet, crimson and maroon.

PASTELS—Rose, peach, apricot.

VICTORIAN—Cerise, plum, fuchsia.

WHITE—Gold and orange centers.

YELLOW, GOLD, ORANGE, BRONZE, COPPER, RUST.

3 for \$1.35; 6 for \$2.50; 12 for \$4.50

TWO-TONE PASTELS

Each stalk carries a flower head of two or more shades. Some are light pink through lavender, light yellow through bronze and copper.

All are 75c each

COWICHAN STRAIN—Crossed with blue, which gives the flowers a rosy glow. 75c each.

BLUE—Light blue through deep navy. 60c each.

BLUE BOY—Beautiful clear sky blue. 75c each.

GOLD LACE—Rich mahogany. Each petal laced with gold. 75c each.

SPECIAL NAMED VARIETIES

WARM LAUGHTER—Orange scarlet with diffused gold center. Petals have serrated edge. The whole plant has the appearance of rich velvet. \$1.25 each.

CROWN PINK—Delicate coral pink with gold star center. The jewel like character of the flower makes this plant irresistible. \$1.25 each.

ACAULIS — POLYANTHUS

This group starts out in early spring as Acaulis, single flowers on four inch stems. As the season progresses the polyanthus characteristic develops, a tall stalk appears holding high a cluster flowers, and still clothed with blooms at its base. Mixed colors 60c each; 3 for \$1.75.

ACAULIS

The Acaulis type blooms early in the spring. They are low growing plants, with each blossom on its own stem. When in full bloom they make a brilliant display. Colors include pink, apricot, fuchsia, crimson, white, cream and yellow shades. 3 for \$1.35; 6 for \$2.50; 12 for \$4.50.

Seedlings of Polyanthus and Acaulis \$1.25 dozen

DOUBLE ACAULIS

The double Acaulis primroses are horticultural heirlooms, handed down to us through the years. All varieties must be propagated by division, their seed bearing facilities being forfeited in the doubling.

MARIE CROUSSE—A blue ribbon winner for us. Rosy violet, with white edging. Supply limited. \$1.50 each.

QUAKER BONNET—Lavender—\$1.00 each.

WHITE—Takes on delicate pink shade as it fades. \$1.00 each.

JULIANA HYBRIDS

These midgets bloom early. They grow in mats and mounds, smothered by brilliant blossoms. They are rugged and increase rapidly.

HYBRID PINK—Large pink flowers. 75c each.

NETTIE P. GALE—Shell pink to white. 75c each.

WANDA—Bluish purple. 50c a clump.

DOROTHY—Yellow blooms on miniature stalks. 75c each.

ROBERTA—Lilac blossoms. 50c each.
